So Nathan Dolbar

THOUGHT

But It Really Contained Twice the Amount of Alcohol Allowed the Local Option Drink

At the mounted Police Barracks this morning Nathan Bell was found guilty of selling beer at the exhibition that contained nearly twice the percentage of alcohol that local option laws allow. The beer was accordingly priced \$2 and costs.

A number of witnesses were called, Mr. Moore, the secretary of the Exhibition Association being the first, and who certified that the privilege space had been sold to Bell.

H. E. Rudd, provincial inspector for the Liquor License Department, witnessed as to the taking and sealing of the samples, as also did Delmar Hodgkin, and Constable Charles certified as to the safe keeping of the same.

The beer was analysed by Mr. H. C. Graham's chemist at the Provincial Laboratory, and was found to contain 9 per cent of alcohol, over twice that allowed for local option beer.

Bell pleaded not guilty and was defended by Mr. Parle, who said that the beer had been procured from the Calgary Brewing and Malting Company, and that Bell had been under the impression that it was local option beer as there were labels to that effect on the barrels. The barrels were brought to the grounds intact and sold as two and a half per cent beer.

The magistrate, Mr. Wilson, in giving judgment said that it seemed that Mr. Bell thought he was within the law when he sold the beer, but at the same time it was necessary for him to know what he was selling, and he would therefore fine him fifty dollars and costs.

There are some swell new things in Men's Soft and Straw Hats at Kelly & Moore's.

MAY GO AHEAD NOW  
Nothing to Stop City Making Application for Powers Rights on the Athabasca

Commissioner Bourdon has received word from the secretary of the interior department at Ottawa, advising him that there is nothing to bar the consideration of the city's application for rights on the Athabasca River for the erection of a power plant, providing that it is made in a regular manner.

One Dairymen's License Was Suspended for Unsanitary Conditions—Doing Better Now

Contained in the report of Andrew Logau, the milk inspector, for the month of July, is the statement that the dairy license of L. Derval was suspended on the 10th of August, on account of the unsanitary conditions of his premises. Derval, however, was

## A Remarkable State of Affairs.

The schools in Strathcona have no fire escapes for the children in case of fire.

The attention of the Daily Capital was called to this rather peculiar state of affairs by Mrs. Maguire, who has but lately arrived from Ottawa and taken up her abode in Strathcona. Mrs. Maguire has a little girl, ten years of age whom she wished to send to school. She therefore sent her to the Grandon street school.

The same day, wishing to see how her little girl was getting along, and what the school buildings were like, she called on the principal, Mr. Clark, and was shown over the place. To her amazement there was nothing in the way of a fire escape and her little girl was put to work in a room at the very top of the house, three stories high. The older pupils have their class rooms on the first and second floors, but the very small ones are put furthest from the exit.

Mrs. Maguire spoke to the principal on the matter. He said that the children were all very well trained in fire drill and that he could have all the pupils outside the house in three minutes from the time of the alarm.

No doubt this would be quite possible with a free stairway and no smoke and excitement, but with the stairs filled with smoke and the fire blazing below, and all the little children scared out of their wits what would be the result? How long would it take then, before every one was in the open air.

Mrs. Maguire would not for a moment allow her child to be in a place where there was no means of exit other than the wooden stairs, and as all the schools are the same she was compelled to send the girl to the Alberta college over in Edmonton. This, of course, is very inconvenient. A little girl only ten years of age having to ride over in the car all alone every morning, buy her luncheon by herself and ride

GETTING WELL SLOWLY  
Mr. Watt Still Suffering From Injuries Received in Durand Wreck

The latest news from Flint, Mich., as to the condition of Mr. Balmer Watt indicates that the burns and scalding are healing, but that Mr. Watt is very weak and besides suffering from the shock and also from his lungs owing to the steam inhaled.

## GRAND TRUNK NOW BLAMES ENGINEER

Coroner's Inquest Into Durand Wreck Held Yesterday, But Did Not Conclude

## FEELING RUNNING HIGH

Company Blamed for Wreck by Employing "Scabs" Who Are Inexperienced

(Special to the Daily Capital)  
Flint, Mich., Sept. 1.—The coroner's inquest held at Durand yesterday to inquire into the cause of the G. T. wreck near Durand last Wednesday night adjourned after examining several witnesses, until September 7. The railroad has fixed the blame on Engineer Spencer, of train four, and discharged him. It is thought the state verdict will be against the flagman of the wrecked train who was a "scab."

Davis, of Montreal, whose mother and the trained nurse accompanying her were killed in the drawing room of the fast car, maintains his will to die and is expected to live. Engineer Spencer will be his pall-bearer, but the fireman is in a critical state. Another workman passenger at Hurley hospital is not expected to survive.

The wrecks continue to be the sole subject of interest in this part of the country. Feeling runs high against the company on account of the recent strike and the employment of "scabs." The wrecks continue to be the sole subject of interest in this part of the country. Feeling runs high against the company on account of the recent strike and the employment of "scabs."

## NO WORD OF SS. EARL GREY.

Went to Nelson to Meet Governor-General

Ottawa, Aug. 31.—No word has yet been received here as to the whereabouts of the steamer Earl Grey which went to Nelson to meet the Governor-General at the end of his overstay.

The marine department has been receiving many messages, but no definite time schedule was fixed and it was the intention of the Governor-General to make a cruise to distant ports of the bay and take his time doing it. It is thought, however, that she will soon be reported as her coal supply is limited. She burns one and one-half tons an hour.

## HAD A VERY HELPFUL HAND—BUT

### He Helped Himself to Others' Goods So Now He Gets a Month for Nothing

Ollie Lenholin is a man who believes in an equal division of property and so on. During the last week, Ollie has carried his principles into practice twice. Early in the week, while passing a saloon in Wainwright, he chanced to see a very fine pair of patent leather shoes. On comparing his own delapidated footwear with the elegant samples hanging at the entrance to the shop, he wondered why providence allowed such things to be.

"I am only a poor down trodden laboring man," he soliloquised, "why shouldn't I clothed in purple and fine linen as well as the other man?"

Ollie then and there decided to practice what he preached and promptly took out his knife, cut the strings, and suspending the shoe over his shoulder, he walked off.

Ollie got about ten yards down the street when a gentle tap on the shoulder called his attention. Shorly afterwards he was handed over to the police.

When arraigned before the police magistrate on charge of theft, he pleaded so hard that he was allowed to go on condition that he left the town.

This morning when Magistrate Byles took his place in the bench, there was Ollie again. Ollie had been practising his handiwork again.

Last night Ollie walked down the other side of Jasper avenue, when his

Calgary, Two O'Clock—Calgary Baseball Club refuses to accede to President Eckstrom's orders so Edmonton wins pennant by default. Both teams are being paid off this afternoon

## +++++

(Special to the Daily Capital)  
By F. H. McPherson

Calgary, Sept. 1.—Backed up by instructions from President Edmonton, Deacon White handed his ultimatum to President Middleton that now today demanding that at least two of the post season games be played in Edmonton.

The best of it is that if Calgary refuses to play part of the post season games in Edmonton, there will be no series at all, and the Eskimos will claim the pennant, as Calgary is disengaged the president's instructions. If a favorable answer is not received by two o'clock the Eskimos will disband. Calgary papers are very bitter at Eckstrom for his stand on the but the president deems that he ever thought of having the entire post season series in Calgary. Edmonton holds the trump card.

## 'TEMPERANCE BEER WAS REAL STUFF

So Nathan Bell Was Fined Fifty Dollars for Selling It At the Fair

## THOUGHT IT WAS WEAK

But It Really Contained Twice Amount of Alcohol Allowed in the Local Option Drink

At the mounted Police Barracks this morning Nathan Bell was found guilty of selling beer at the Exhibition that contained nearly twice the percentage of alcohol that local option beer is allowed to contain, and was accordingly fined \$50 and costs.

A number of witnesses were called, Mr. Moore, the secretary of the Exhibition Association being the first, and who certified that the privilege space had been sold to Bell.

H. E. Rudd, provincial inspector for the Liquor License Department, witnessed as to the taking and sealing of the samples, as also did Delmar Hastings, and Constable Charles certified as to the safe keeping of the samples.

The beer was analysed by Mr. H. C. Graham a chemist at the Provincial Laboratory, and was found to contain .9 per cent of alcohol, over twice that allowed for local option beer.

Bell pleaded not guilty and was defended by Mr. Parlee, who said that the beer had been procured from the Calgary Brewing and Malting Company, and that Bell had been under the impression that it was local option beer as there were labels to that effect on the barrels. The barrels were brought to the grounds intact, and sold as two and a half per cent beer.

The magistrate, Mr. Wilson, in giving judgment said that it seemed that Mr. Bell thought he was within the law when he sold the beer, but at the same time it was necessary for him to know what he was selling, and he would therefore fine him fifty dollars and costs.

## "THEY'RE LOCUSTS" SAYS ENGLISHMAN

And He Was Speaking of Western Real Estate Dealers at the Time

## WERE TOO ENERGETIC

Mr. Harry Brittain, English railway promoter, says nothing definite re H.B. Railway

## +++++

Mr. Harry Brittain, the well known English millionaire journalist and railway promoter, who is a guest at the King Edward, was asked this morning if the party of British peers and financiers now touring Canada, of which he is a member, were interested in any railway projects in this country, particularly the Hudson Bay Railway.

"There is absolutely nothing definite at present," replied Mr. Brittain.

Accompanying Mr. Brittain is Mr. Norton-Griffiths member of the Imperial House of Commons, and Mrs. Griffiths. The rest of the party are now scattered throughout the country, while Lord Brassey is now on the high seas to Canada from the old country. Lord Dunmore did not come to Edmonton.

Mr. Brittain, however, stated that the party were interested in land and lumber.

"We have land in many parts of the west," he said, "and it aggregates 30,000 acres. It is our intention to develop it by bringing our British settlers."

Mr. Brittain said that every one of the party had been besieged by real estate men ever since their arrival in Canada, characterizing them as "locusts."

"We were especially annoyed while in Vancouver and Victoria," said Mr. Brittain, "On the journey to Victoria we were followed by a veritable army of them, and when any of us chance to show our noses outside of our cabins, two or three of them would be sure to tackle us and explain their outlandish scheme."

Both Mr. Brittain and Mr. Norton-Griffiths are in Fort George and when asked their opinion of that place, said that they were not given an opportunity to see it.

"The townpeople had us speaking at banquets and dinners," said Mr. Brittain, "and we did not see enough of it to form an opinion. What is to be the town, anyway?"

Messrs. Brittain and Norton-Griffiths are interested to a great extent in South American railways, and they among others have had a great deal to do with the southern continent in the way of development along that line.

## PEG NOW GREATEST OF WHEAT CENTRES

Winnipeg at Last Outstrips Minneapolis and Leads All Cities on the Continent

Winnipeg, Sept. 1.—Figures of grain shipped at Winnipeg show this city is now the largest wheat market on the American continent, displacing Minneapolis which has held the leadership for a long time. For the crop year ending last night receipts were 88,269,330 bushels. Figures for the same period at Minneapolis are not available, but for the calendar year ending December 31, last year the receipts there were 61,111,110 bushels.

## MILK TOO HOT IN DELIVERY?

Inspector Logan Says It Is and Would Like to See a Bylaw Passed

## TO FIX TEMPERATURE

Some of the Dairymen Do Not Cool the Milk Before Delivering It

## AND SO IT SPOILS EASILY

One Dairymen's License Was Suspended for Unsanitary Conditions—Doing Better Now

Contained in the report of Andrew Logan, the milk inspector, for the month of August, is the statement that the dairy license of L. Derval was suspended on the 16th of August, on account of the unsanitary conditions of his premises. Derval, however, was allowed under close supervision to continue the sale of milk to the end of the month, but if he does not come up to the proper standard in the future, his license will be cut off.

The report states that a great number of dairies were found to be in a satisfactory state, while a few were found defective in a few minor details, and the owners have been asked to make changes.

"The selling of the milk has been performed by a large percentage of the farmers in a very unsatisfactory manner," says the report. "Milk which was only partly cooled was handled by a considerable number of dairymen in the city in the early part of the month at temperatures injurious to the keeping qualities of the milk. At the same time one or two used ice in their crates and delivered their milk in condition that I would strongly recommend that a bylaw be passed setting down compulsory temperatures to which milk must be cooled to, kept at, and delivered at.

"In the early part of the month 25 samples were bacteriologically found to be in a very unsatisfactory condition. The party who supplied the milk of poor quality on being notified very materially improved. About the middle of the month a few samples were taken and found to be in a very satisfactory condition.

## "I" RAMPANT

Two of the biggest Egos in the world today have very recently broken loose. We refer to William of Prussia—the great I AM of the German Empire, and Theodore of Nassau, the great I AM of the Republic of the United States.

Dilly, at a recent banquet at Kingsburg, made the following statement:

"Considering myself as the instrument of the Lord, regardless of passing views and opinions I go my way, which is solely devoted to the prosperity and peaceful development of our country."

Toddy, in a speech at Cleveland, expressed his belief in himself in the following modest utterance:

"I will make the corporation come to time and I will make the mob come to time. If the corporation does wrong I will catch it, if I have the power to do so. If the poor man does wrong, I'll stand back of the law to see that he gets his deserts."

Both are great men, but never greater when they contemplate themselves. Yet this perpetual sounding of the "I" note palls on their respective peoples. In Germany the press of all shades of political opinion laments the Kaiser's utterance of his "Divine right." In the States they still love T-R, but they are beginning to smile a trifle at the "Apostle of Garrison," as the New York Sun terms him.

Roosevelt is at present deep in a tour of the Western States, the stronghold of his enthusiastic followers. He had a great reception last Saturday at Cheyenne. There was a great deal of cheering, and the boys and girls were there with their six shooters. All that popularity is extremely pleasing to Mr. Ex-President. But whether T-R has an eye on the presidential chair for 1912, or whether he does accept the nomination, he will command enough popularity to again rule the States with his rod of "I"-ron, remains to be seen.

## HINDUS AND OFFICIAL DOM

Dealing with the familiar charge that "education to the Hindus simply means getting qualified to fill a government job," the New York Post indulges in some sarcasm. The accusation against the Hindus must condemn him "in the eyes of a nation like ourselves, for instance, whose disestate for public office, for government 'snaps,' and for government contracts is notorious. One would imagine that, by contrast with the office-hunting Hindus, the Englishman who comes out to rule over him is led to India by the sense of a lofty human mission."

Commenting on this the Toronto Star remarks:

Now this is precisely what is claimed for the British official in Hindu; that he is inspired by a lofty mission, and that he carries up to his ideal, and performs his duty with unwavering fidelity. This is probably true. There must be with him, as with other human beings, another side to the question. He wants the career; he frankly seeks the office and prepares himself for it; he undergoes a process of education for the same reason that the Hindu educates himself, "to get a job under the Indian Government." It is decidedly illogical to say that the aim is worthy in one case and unworthy in the other. And it seems both ungenerous and unstatesmanlike to jeer at the Hindu's desire to serve his people and the Empire.

It must be remembered too, in considering the Hindu's attitude that British civilization is exemplified to him mainly by its officials. He naturally copies the man whom he sees. He sees hardly anything of the British machine or farmer; he knows in India nothing of such a social structure as exists in England or in Canada, where the official plays a comparatively small part. It is perfectly natural, therefore, that his ambition should lie in the direction of officialdom or one of the learned professions.

## THE RAILWAYS AND THE FORESTS.

At the present moment, when a considerable part of the forests on the Pacific slope are on fire, the following extract from the speeches made at the first gathering of the Dominion Conservation Commission should prove interesting.

Mr. Goodeve (British Columbia)—  
A very large proportion of forest fires is caused by railways. It is important to bear in mind that there are conditions, in that connection, even with the railways, that are favorable to the growth of some plants, and that I have seen on trains that were stalled going up these grades that have to wait to get up steam. The result of that is that, while the Railway Commission has laid down certain rules and regulations regarding fire appliances on engines and fire-boxes, there is a great temptation for the engineer and his fireman, when they find it necessary to carry the train, to keep steam up in some way; on many occasions either to remove the fire screen altogether, or, as some of them even do, to open the firebox enough to burn it in order to get a draught. That, in some cases becomes a great temptation. It is difficult to say just how far the commission can go in making these mechanical restrictions.

"Moreover, they would have to be carefully worded. The very suggestion that was made by the chairman has been made to the railroads, viz, that they should have an electric or gas traction motor equipped with a hose and carrying a supply of water with which they could follow up at regular intervals trains going through valuable timber, or have telephone lines along the line, so that when a fire should break out, the engineer could telephone to a fire station and have this truck go to the scene of the fire. Of course, the demurred at the expense; but we must consider that, while nothing unfair should be done, they—the railroads—must be made to feel their responsibility.

The clearing of the right of way is clearing in itself in many places; it dries in the hot summer and simply forms tinder for a large percentage of fires that come from the railways. Two of the most practical suggestions that have been put forward are, that the right of way should be charged and that the railroads should be held directly responsible for fires caused by them, thus not placing on the average man the whole onus of fighting a great railway corporation. It is nearly impossible to do this. We did carry one case against the Great Northern to the Privy Council and got a verdict of \$2,000 and all costs. It was a long hard fight; but they had taken the number of the engine, knew where the fire occurred, how it occurred, and where it went to.

The chairman, Mr. Clifford Sifton, in his report, said: "I am sure that just as soon as the law makes them responsible they will not pay any attention to it. I have never been able to work out the principle on which we permit railways to go through the country spreading destruction. We do not allow any one else to do that and why we should permit the railways to do so I cannot understand. For my part, I would be prepared to support the strongest possible resolution urging the government to make the law which would permit the railways to be fully responsible for the Inter-colonial Railway, my opinion is that it should be in the same position as any private corporation."

Mr. Davidson—As far as conservation is concerned it is burlesques to put in our time talking about it while the railways are allowed to burn the country from Nova Scotia to British Columbia. If the destruction caused by them is not stopped, it is nonsensical to attempt to conserve what have.

## What Others Say

## JAPANESE COLD STORAGE

On a recent visit to the city of Takaoka, on the northwest coast of Japan, a writer in the September Strand Magazine, had occasion to observe what at first I imagined to be a strange but on investigation found to be the mechanical storage; he knows in India nothing of such a social structure as exists in England or in Canada, where the official plays a comparatively small part. It is perfectly natural, therefore, that his ambition should lie in the direction of officialdom or one of the learned professions.

FLOATING DRUG STORES IN  
MALAY PENINSULA

(Indianapolis Sun)

According to Consul-General James T. DuBois of Singapore the sale of western medicines in the Malay Peninsula should find impetus under the new system of distribution. A dispensary boat, which would be equipped to port upstream and made down stream—will be equipped with Western medicines and cruise on the Pahang river in charge of a Malay "dresser." It will also facilitate the free distribution of quinine to the natives, which work has hitherto been accomplished through the agency of police stations and vernacular school teachers.

## PASSING OF THE OLD HOTEL

(Simon Ford in Leslie's)  
It is too bad that the old hotel is so scarce in a way, for there is much comfort and peace to be derived by being around one of them. In your old hotel Mr. Traveller may turn completely around without having to pay 5 cents. He can put on his hat without giving up a nickel. If he drops his umbrella he does not have to pay with a dime to have it recovered. He may scrub his hands in the washroom of the old hotel without having somebody buzzing in his ears, asking if the water is satisfactory and collecting money to hand him the towel, which is on the shelf in front of him. He may part his hair, if he has any, without having to pay to do so. He may smoke, write a letter, go where he pleases and be glad that life is not all marble slabs and gilt hellos. It is a fine thing to have an old hotel.

## MEANING OF INSURGENCY

(Boston Traveller)  
Insurgency is rampant throughout the middle and western states, and is making headway in the east. What does it mean? What is the significance of this rebellion within the Republican party? It is a problem. The greatest Republican party since the time of personal freedom and human rights, has become the party of industrial slavery and the guardian of property rights. Decade by decade it has fostered a system of legislation and control that has placed a business oligarchy at the head of industry and government, and made popular rule more and more a mockery.

The fact has become so clear, the issue between property rights, and human rights so definitely drawn, that honest Republicans who wear no plotters' goggles and do not bow the knee in partisan idolatry will no longer tolerate such abuses. These men are insurgents, as the others in the Republican party were insurgents. They are trying to bring the Republican party back to first principles. They want to free the slaves of the new social system, and guarantee them human rights henceforth. And if there is any salvation for the Republican party, the way for that salvation is pointed by the insurgents.

## DID PRAYER DO IT?

(From the Toronto Star.)

A resident of Whibley has written a rather remarkable letter to the Star. Without pronouncing upon it one way or the other, the Star gives it to the public:

Mr. Editor—I, as a Christian subscriber, wish you to print the following:—I dug one hill, medium size, in the middle of my garden, and to my surprise I got 135 fine potatoes out of it. Ever since I planted the potatoes on April 4th, I have earnestly prayed the Lord to bless all my hardwork, and even perform a miracle on me if

## AUGUST BANK CLEARINGS

Figures Showing Increases in Various Cities Over Last Year

Toronto, Sept. 1.—The bank clearings for the principal Canadian cities for the month closing today, together with the figures for the corresponding month last year, are as follows:

COUNTESS GREY IN BRANDON

Her Excellency and Lady Evelyn Are Guests of Senator and Mrs. Kirchoffer

Brandon, Sept. 1.—Her Excellency Countess Grey, accompanied by her daughter, Lady Evelyn Grey, and Lord and Lady Lonsborough and suite arrived in Brandon early today on their way east. The party spent the morning as guests of Senator and Mrs. Kirchoffer. They were driven to the experimental farm and the Indian industrial school and commented very favorably on the appearance of the crops, flowers and shrubbery there. They left on this afternoon's train for Winnipeg.

Do not fail to hear the all-story lecture, "Jean Val Jean," by Dr. Cleaver, Friday night at McDougall Church.

## IS MADE DEPUTY MINISTER

A. F. Mantle Appointed to vacant position in Saskatchewan

Regina, Sept. 1.—A. F. Mantle, formerly of the Manitoba Free Press, and for the past year chief of the bureau of information and statistics of the provincial department of agriculture, has been appointed deputy minister of agriculture in succession to Professor W. J. Rutherford, who shortly removes to Saskatoon as dean of the College of Agriculture.

"What is woman?" asked the speaker.

"Woman," replied the man in the audience—a married man—"is an animated being, with the power of speech abnormally developed, and entirely surrounded by a dress that buttons up the back!"—The Sufferer.

The story of Jean Val Jean, once hard, can never be forgotten.

## The Peace River Wagon Road

Now under construction, with Entwistle as the starting point, is 200 miles shorter than the present trail. Thousands of settlers will use this road next winter and the following spring, making Entwistle their base of supplies, and offering wonderful opportunity to those with foresight and decision to seize it promptly.

## The Western Canada Coal Co.

Control 10,000 acres of surface and coal rights adjoining the town of Entwistle, for which they paid \$1,100,000. This property is now being developed on a large scale, over forty men being employed at the present time. The company expects to be operating in October, and to have an output of 500 tons per day, which will be gradually increased to 1,000 tons per day.

## The Black Diamond Coal Co.

Recently incorporated in the State of Washington, with a capital of \$3,000,000, announce that they have acquired 4,480 acres of coal rights at Entwistle, and that development work will start at once. These two companies will employ upwards of 1,000 men in the course of the next few months.

## Lumber Mills

At Entwistle employ forty men at the present time.

## The Grand Trunk Pacific

Reached Entwistle ten months ago, and the development of the wonderful natural resources of the Pembina River immediately started, and today the development work has reached the stage where it is assured hundreds of men will be employed in mines, quarries and lumber mills.

## The Canadian Northern Railway

Will lay steel into Entwistle this fall, furnishing the second transcontinental railroad, and offering mine owners, lumbermen and merchants competitive rates. Entwistle will be the terminus of the C.N.R. for one year, while their high level bridge over the Pembina River is being built. There is no other city in the Province where there is so much development work taking place. Entwistle is bound to be a city, and in the immediate future. Every indication points to a rapid increase in the value of

## AUGUST AT THE BOARD OF TRADE

During the month 524 letters were received by the secretary of the Board of Trade; 1668 letters were sent out by the secretary, and 804 pieces of Edmonton literature were sent out to prospective settlers, investors and others known to be interested.

Forty-nine prominent writers and journalists and representatives of great publications were afforded facilities for seeing the resources of the city and district and the usual courtesies were extended. Most of these were given extensive drives through the city and as well as about the city. A large number of others, prominent in commercial, financial, industrial and railway enterprises, were also shown about, including the presidents and general managers of the Grand Trunk and Grand Trunk Pacific rail-

ways. There were about 675 callers at the board room during the month, most of whom were strangers to the city or district, and were furnished with information as to the resources of the Edmonton district.

Professor Orton, the specialist on clay products, brought out by the board from the University of Ohio, was shown over the various clay deposits for six days, by the secretary and others.

A magnificent exhibit of agricultural resources was sent to the national exhibition at Toronto, accompanied by an able representative.

An office of the board was opened at Calgary under the charge of Mr. S. W. Candy, and a strong exhibit installed, demonstrating the favorable conditions prevailing in Central Alberta. A small but very attractive exhibit has also been installed in a prominent location at Lethbridge.

Referring to the Lord's Veto campaign in England, Archbishop Bourne stated that the idea of a conference between the leaders of the various political creeds was quite an ingenious one for ordinary minds, and that the result of the conference would likely result in an understanding.

"A peculiar state of affairs has arisen in connection with the conference," went on His Grace, "in that as nobody knows what is going on or what decisions are being made, all the lesser or more ordinary politicians have to keep their mouths closed, because they haven't the faintest idea what their leaders are committing them to."

"Are the Roman Catholics in the old country satisfied with the change in the Coronation Oath?" asked the reporter, switching the topic.

"Oh, yes," returned His Grace; "we are satisfied now. But I cannot see why matters of religion should be connected with matters of politics, and further I cannot see why the sovereign should be obliged to accept any stated religion. At present he is obliged to profess Protestantism, or whatever is in England to-day, that is bound to accept Protestant beliefs."

His Grace was asked whether there was any probability of the educational controversy in England being given another lease of life, the archbishop replied that he thought there was not much chance.

"I don't think that there is any political party in Britain prepared to take the matter up," he said.

"Has the land question in Ireland been causing any trouble recently?" continued the reporter.

"It is quite satisfactorily settled now," returned His Grace. "Conditions in Ireland are gradually be-

ing bettered, the movement owing to the system by which he may acquire an interest in the land."

"Have you any special message to give to the Roman Catholics of Edmonton?" asked the Capital.

"You may tell them that I am very much pleased with their city and with the Roman Catholic institutions existing here. Tell them that I am glad to note the continued loyalty to the mother land."

This morning His Grace went to St. Albert where he had luncheon with the Bishop of St. Albert. This afternoon he will make a further inspection of the Roman Catholic institutions in the city.

Archbishop Bourne is accompanied on his present trip by Mr. Butt, vice-rector of the Jole College, at Rome, and the Rev. Father Jackson, his private secretary. The party, who are travelling in Mr. Ha's private car, will remain in Edmonton until to-morrow.

At 8.15 this evening in the Separate School Hall on Third street, an informal reception under the auspices of the Knights of Columbus will be tendered to Archbishop Bourne of London, England.

All Catholic ladies and gentlemen are cordially invited to attend.

Dr. Cleaver is the only man who can tell Victor Hugo's story of Jean Val Jean.

## ARCHBISHOP HAS MESSAGE (Continued from page one.)

have been fully realized. However, only gives one but a vague idea, and one must see for himself. It is wonderful."

Speaking of the purpose of his visit to Canada, that of attending the Eucharistic Congress, His Grace stated that the idea in the establishment of the annual convention of Roman Catholics, established twenty-one years ago, was to enable the followers of the Roman Catholic faith to reiterate their belief in the blessed Sacrament.

"There are no discussions at the Eucharistic Congress," explained His Grace, "but there are theological points. Matters of doctrine are entirely left alone. Besides," added the prelate quickly, "there are no discussions in the Roman Catholic Church. Either you believe or you don't believe, and to be a Roman Catholic you have to believe."

"Is the church making any material advancement in the old country?" asked the interviewer.

"Yes, we have extended quite a little in England," replied His Grace. "Of course we haven't got the great expanse of country which you have in Canada, and we have quite a number of churches. In Wales, however, up to the present we have not made the progress we expect in the future. We are giving no little thought to the question of extension in England, and as our needs in the way of homes are more than somewhat peculiar, we are mapping out plans to deal with the requirements."

Referring to the Lord's Veto campaign in England, Archbishop Bourne stated that the idea of a conference between the leaders of the various political creeds was quite an ingenious one for ordinary minds, and that the result of the conference would likely result in an understanding.

"A peculiar state of affairs has arisen in connection with the conference," went on His Grace, "in that as nobody knows what is going on or what decisions are being made, all the lesser or more ordinary politicians have to keep their mouths closed, because they haven't the faintest idea what their leaders are committing them to."

"Are the Roman Catholics in the old country satisfied with the change in the Coronation Oath?" asked the reporter, switching the topic.

## A FALL OPENING.

The Barnes Taylor Company are holding their fall opening this week, and have certainly provided a rare feast for ladies who enjoy the beau-fest and rustic in dress.

Their display of materials is really a fine collection, and all of the latest variety; something that Edmonton has not heretofore enjoyed. In fact it is questionable if a more up-to-date, goods can be seen anywhere outside of some of the large Eastern cities.

Every woman who enjoys and appreciates a charming gown will find something attractive at the Barnes Taylor Company's opening.

"Why does he let his wife venture out alone in his auto?"

"He's anxious to see what will happen when two unmanageable things come together." —Smart Set.

**BAIN WAGONS** are oil soaked—thus water-proof.

Together their store has a well-arranged and select style of gowns which for really high class goods is hardly surpassed in Western Canada. Their management promises that they have got a competent augmented staff, and are in a position to produce any kind of suit or gown at less than Eastern prices.

Every woman who enjoys and appreciates a charming gown will find something attractive at the Barnes Taylor Company's opening.

"Why does he let his wife venture out alone in his auto?"

"He's anxious to see what will happen when two unmanageable things come together." —Smart Set.

## Contractors. Attention!

Our new electric floor surfaer smooths, sandpapers and polishes hard wood and soft wood floors, and does as much as six good men. It's still better on Terazzo floors. If you want to repolish an old floor try it with the brushes that go with it and see the wonderful results. Moderate rental per day.

## A HOT ROAST FOR CORBETT

New York, Aug. 31.—An article by Robert Edgren, sporting editor of the Evening World, printed today, is causing wide comment.

Edgren says in part: "The faded stories about Jeffries published after the fight are somewhat amusing to those who know the inside facts. Jim Corbett, for instance, tells how Jeffries sat up at a window all night before the scrap, shivering in his nightie and worrying himself sick about his coming defeat.

"Jeff didn't sit up in his window. He slept thirteen hours, and in the morning they had to wake him.

"There was a reason for that—and perhaps Corbett knows what it was. But he didn't tell it in his monologue."

"Corbett got off some other sentimental slush about Farmer Burns, and how the Farmer, realizing that Jeffries had 'broken down,' stood sobbing at Jeffries' side in his dressing room before the fight.

"Slush—slush—slush!"

"Farmer Burns was the man in Jeffries' camp. When Corbett was lying in bed in the morning or sitting around playing pinochle or playing handball, Farmer Burns was there, from daylight and out on the road with Jeffries. I never saw Corbett on the road with Jeffries himself. That was real work. Burns was with Jeffries, faithfully, morning, noon and night. He ran every mile that Jeffries ran, and even at night he was often prowling around Jeff's quarters like a faithful watchdog, to see that nothing disturbed the champion's sleep."

"Burns is a stern, square-jawed, intelligent man—a real man. He is known as the trickiest and most skillful wrestler ever seen in this country. Imagine Burns sobbing until restored to his wits by a warning glance from Jim Corbett.

"During the fight Farmer Burns was close to Jeffries every minute of the time. Not so with Corbett. When the fight had gone far enough to show that something was wrong with Jeffries, so that he was being slowly beaten down, Jim Corbett, supposed to be his chief and dearest delight, walked away from his corner and deserted him. He walked half way along the side of the ring and stood there leaning on the ropes."

"The only thing Corbett did during the fight was to talk to Johnson, and Johnson had very much the better of the 'kidding' at that."

"Some of these days a few hitherto unpublished details concerning the defeat of Jeffries, and the twenty-four hours that preceded it will be in every paper in America. They'll make good reading, too."

## GOLF CLUB TOURNAMENT

The programme of games to be played is as follows:

Thursday, September 1st  
3 p.m.—The Mackay Cup\* first round.

Friday, September 2nd.  
9:30 a.m.—Open Singles, Qualifying Round, 18 holes; Medals play.

## CALLIES B VS. N. EDMONTON

The above named teams will meet at North Edmonton tonight to play off their tie in the first round of the United Aids Charity Shield games, two teams playing at their previous games. On this occasion there should be something done, as both teams are eager to meet one another. The Callies B team will meet at the corner of Jasper and McDougal avenues at 5:45, the line up being: Orr, Roxborough, Hunter, Rademacher, Lorance, Irvine, Murdock, Jackson, Alan, Coulin, Todd, Smeller, Bremmer, etc.

The winners of the Red Deer Callies game will play Lloydminster in the finals.

The place and date of the final game has not yet been decided upon.

If the match is played in Calgary, the Callies will have to guarantee Lloydminster their expenses, and vice versa at Lloydminster. There is a possibility that the game may be played in Edmonton, and the two teams split the gate receipts to cover their own expenses.

## EDMONTON WINS SECOND DIVISION BUT CALGARY WANTS ALL GAMES

ASK THAT THE FIVE POST SEASON GAMES BE PLAYED IN SOUTHERN CITY — CLAIM AGREEMENT MADE WHEN LEAGUE WAS DIVIDED INTO TWO SERIES

(Special to the Capital)

By F. H. McPherson

Calgary, Aug. 31.—President Eckstrom at five o'clock this afternoon gave out an official decision over the wires from Lethbridge, forfeiting Tuesday's game to the Edmonton club and awarding them the championship of the second series.

Immediately upon receipt of the wires from Eckstrom, President Middleton of the Calgary club called a hasty—up meeting of the directors.

As a result of the conference, the decision of the league president was protested to Secretary Farrell of the National Commission and a written statement was prepared and delivered to Manager White at 7:30 this evening.

If President Eckstrom's decision is

sustaining the decision of President Eckstrom awarding you Tuesday's game, 'which we have protested to you, Farrell! we will gladly play a post season series of five games with our team in Calgary under the conditions set forth in the following wires exchanged at the time the split in the schedule was made:

"Calgary, July 8th, 1910.

C. J. Eckstrom, President, Western Canada Baseball League.

Lethbridge, Alta:

"Calgary club does not favor any change in present schedule, but if the majority of the clubs insist on change, this club will follow the league, providing that the entire post season series is played in Calgary, with the winner of the second series. Otherwise Calgary will play only as per schedule."

If this telegram ever passed between the president and Calgary it was never made public. Deacon says

he would never have consented to a division of the schedule with the agreement that the entire post season series be played in Calgary. It is pre-

dicted that when told of Eckstrom's

decision Middleton will express his

disagreement.

When asked how he would divide the gate receipts in the event of all games being played in Calgary, President Middleton stated that after the gate rent and tenant's expenses were deducted the receipts would be divided equally.

Giving Middleton no definite an-

swer, Deacon left his office and got Eckstrom on the phone. He said

when told of Eckstrom's decision, that

it was manifestly unfair and should be left to a committee of three to decide.

"C. J. ECKSTROM,  
"President."

"BENNETT SHIELD GAMES

Calgary, Aug. 31.—The Calgary Caledonians, who beat Lethbridge on Saturday in the first round of the Bennett Shield, will play Red Deer on Saturday, at Red Deer.

The Callies will be represented by the same team that won from Lethbridge. Red Deer is a strong eleven, and has cleaned up everything in sight in their district. Whether they will be strong enough to beat the Callies is not to be seen. They may bring a surprise to Lloydminster, did when that team put one over Edmonton.

The winners of the Red Deer Callies game will play Lloydminster in the finals.

The place and date of the final game has not yet been decided upon.

If the match is played in Calgary, the Callies will have to guarantee Lloydminster their expenses, and vice versa at Lloydminster. There is a possibility that the game may be played in Edmonton, and the two teams split the gate receipts to cover their own expenses.

"WINNIPEG WINS LAST

Winnipeg, Sept. 1.—Maroons captured final game of the league series from the Angels today, 5 to 1.

Collins was in good form and after the first round the visitors never had a chance. Heinrich was touched up opportunity.

R. H. E. Winnipeg ..... 031 000 100—9 0

Branson ..... 000 000 000—3 4 1

Collins and Kiehn; Heinrich and Cooper; umpire, Syder.

"TOURING INDIAN TEAM

Toronto, Sept. 1.—Jimmy Murphy is in a quandary. This morning he received a wire from Con. Murphy of the Vancouver L. C. asking him if he would take charge of a team of Indians to tour Australia this winter.

Included in the party will be Tommy Burns, who achieved fame as a lacrosse player before he took up the boxing game, and Tom Longboat.

It is proposed to leave on November 1st, and the trip will not take less than four months and probably six.

Mr. Murphy is undecided in regard to the matter. He does not anticipate any trouble in getting the players, but he would like to be sure of the financial end before undertaking the contract.

Jones wired that an immediate reply was necessary, and the Toronto manager is now seriously considering the project.

"I'm looking for something about 35 cents," she said, sweetly.

"A souvenir?" replied the clerk.

"Here's a very pretty one for 50 cents."

"Dear me, I don't want to pay that much. I want a gift for a very dear friend at home."—Detroit Free Press.

One dry moment in Dr. Cleaver's lecture, Jean Val Jean.

## TENNIS TOURNAMENT

Draw for Friday, Sept. 2nd, 1910.

6:30—Court 2. Mixed Doubles—Mr. and Mrs. Hay v. Dickey and Miss Davies.

6:30—Court 3. Mixed Doubles—A. Toole and Miss Toole v. Mr. and Mrs. Bolton.

"CALEDONIAN MEETING

A meeting of importance of the Caledonian football club will be held this evening at 8 o'clock in the Central School Hall to make arrangements for the Lloydminster trip.

"I'm looking for something about 35 cents," she said, sweetly.

"A souvenir?" replied the clerk.

"Here's a very pretty one for 50 cents."

"Dear me, I don't want to pay that much. I want a gift for a very dear friend at home."—Detroit Free Press.

A small religion will never draw big

## LAURIER AGAIN VISITS ALBERTA

Spent Yesterday in Speaking at Lethbridge and McLeod—

Premier Sifton With Party

Lethbridge, Aug. 31.—Sir Wilfrid Laurier arrived in Southern Alberta for the concluding portion of his tour this morning. His train lay at the Crow's Nest over night. The Premier rose early to view the Crow's Nest mountain and subsequently the vast stretch of boulder-covered country left by the devastating mountain slide at Frank two years ago. The coal industry, represented by a series of busy mines in full swing, was also inspected.

The Premier parted with Hon. Wm. Templeman, Ralph Smith and Senator Bostock, who accompanied him on his British Columbia tour, at Fernie and Frank Oliver, Premier Sifton of Alberta, who will travel with him through this province.

The Premier's schedule has been changed. Instead of proceeding again to Calgary and Edmonton and traveling the Grand Trunk Pacific, his train will run over the Canadian Pacific from Medicine Hat to Winnipeg. It is possible the Hon. Geo. P. Graham will inspect the prairie portion of the Transcontinental en route to Pas Mission.

MacLeod gave the Premier a cordial welcome. A procession with bands was formed through decorated streets to the city hall, where addresses were delivered from a platform to a gathering of three thousand.

At the Lethbridge reception five thousand assembled in the civic hall in afternoon, where H. A. Driggs, on behalf of the United States settlers in southern Alberta, presented an address setting forth their satisfaction and loyalty for the country of their adoption.

\*\*\*\*\*

## AT THE THEATRES

MRS. GORING'S NECKLACE

"Mrs. Goring's Necklace" is the title of the play to be produced by the Edmonton Amateur Dramatic Club at the Empire Theatre on Friday Sept. 1st and Saturday Sept. 2d. The cast is as follows:

Capt. Mayhew ..... A. E. Nash

Lieut. David Cavin ..... S. Ray Ferguson

Lieut. M. J. Maxwell ..... W. J. Maxwell

Charles ..... Dick Jefferson

Mrs. Jardine ..... Miss Seymour

Isabel ..... Miss Potter

Vickey ..... Miss McKenna

Miss Potts ..... Miss Ross

Mrs. Goring ..... Miss Mackie

The cub has the reputation of doing things in right good style, and we are looking forward to this play, as we understand it is going to eclipse all others. The cast is certainly a strong one, and although there are some new aspirants to the world of fame, we hear that the parts are well filled.

## About Town

The entries for the Furturities race at the exhibition of 1913 closed last night. Seventy-five entries is the total number.

The Edmonton Post Office returns for the month of August contain the following items:

Sales of stamps ..... \$6,84

Money orders issued ..... \$8,845.10

Money orders paid ..... \$14,220.06

Postal Notes sold ..... \$3,935.05

Postal Notes paid ..... \$4,331.22

Messrs. Armstrong Bros. of Edmonton purchased from Mr. J. M. Munro the east half of lot 64, block 5, Jasper avenue, for a good figure.

This portion of the city was being laid out in 1908 with new buildings which owners are continuing erecting. Jasper avenue at this point will be a busy quarter. At the present time shrewd buyers can see a big increase in prices. McManus Bros. act for the vendor in the transfer.

A runaway took place on First street yesterday which caused some little excitement among those living beyond the rail road track. A horse had just been driven into the crossing when the reach of the horse broke and frightened him. He bolted up First street, throwing out the occupant, a man and a woman, the latter of whom was somewhat injured. The frightened animal turned west on Nelson and south on Fourth and Vermilion and was stopped at the corner of Fourth and Vermilion by some men employed on municipal work not however, before he had collided with the corner of a shack and reduced the vehicle to splintered wood and twisted steel.

## TO EXAMINE THE PHONES

Negotiations May Be Renewed With Gas Company—Commissioners Meeting

That the International Lighting and Heating Company are going to make another attempt at obtaining a franchise for the supplying of gas is evidenced by the appearance of the Mayor on whom terms the city would grant them a franchise. The Mayor replied that no franchise would be granted permitting of a higher charge than \$1 per thousand cubic feet. The original offer of the company was \$1.65. The matter was discussed at the meeting of the Commissioners yesterday afternoon, and it was decided that unless they complied with the city's conditions as to public interests, then no agreement could be made.

The city will demand, in the event of an agreement being made, that the municipality make the franchise

so as to prevent any extortionate

charges or watering of stock, and to

see that the profits of the company

would be limited to a moderate percentage of the capital investment.

The commissioners had a discussion

about the telephone service, and it

was decided, by suggestion of a repre-

sentative of the Automatic Electric

Company of Chicago, who was pre-

sent, to subject the system to a

thorough examination and for that

the services of an expert will be

secured this week.

In view of Superintendent Griffith's

report, which contained the state-

ment of the Automatic Electric

Company that they doubted the abil-

ity of head switchman Lowry to give

the equipment the attention necessary

it was decided that Mr. Lowry be

sent to the Automatic School at Chi-

cago, in order that he may obtain

some factory experience.

As a result of Judge Taylor's de-

cision, the City of Edmonton, on

which the building by-law was held

in the balance, the commissioners will

ask the court to amend the by-law.

The application of G. W. Murray, 248 Jasper, east, for a permit to make alterations to the front part of his pre-

misses gave rise to the discussion.

Superintendent McLean of the wa-

terworks, was asked to report on the

application of Mr. Murray, 248 Jas-

per, east, for a permit to make alter-

ations to the front of his house.

By order,

## Personal

Mr. A. H. May and family have returned to the city after spending the holidays at the Lake.

A. B. Atwater, assistant to the President, C. M. Hays, of the Grand Trunk, who was a guest at the King Edward yesterday, left this morning for Winnipeg.

## OLIE HAD A VERY HELPING

(Continued from Page One)

attention was drawn to some very fine coat sweaters, exposed for sale outside of the "store."

"Do I want a coat sweater?" thought Olie. "Yes, I think so."

Olie again felt that gentle tap on the shoulder after he had walked a few yards with the sweaters under his coat.

"I am afraid you are guilty," said the magistrate, and I think that a month in Port Saskatchewan will do you good."

"A month in Port Saskatchewan for nothing," sighed Olie, as a policeman led him downstairs, and locked him in the cell.

## WEDDINGS

Moore—Macfarlane—August 29th at St. George's Church, Banff, Alta., by the Rev. Canon Hobbin, Margaret Elliot Macfarlane, of Port Robinson, Ont., to Norman F. R. Searle, late of Weston-Super-Mare, England, and at present a member of the Edmonton firm of Nash and Searle.

## BOYS BRIGADE CADETS

Cadets and Scouts will resume drill

on Tuesday evening at 7:30. No

names will be placed on the roll for

the season unless present.

All those intending to join the Boys

Brigade Cadets should attend on

Tuesday.

By order,

H. ALLEN GRAY, O. C.

At 1:15 p.m. today No. 2 fire station

received a call from #48th street,

the home of Dr. McDonald, where

some ashes which had fallen from the

stove ignited some rubbish lying in

the basement. The chemical engine

was quickly on the scene and prevent

the blaze from spreading. No damage

was done.
